

## Water Hygiene Technician – Trainee

Are you eager to embark on a rewarding career journey as a Trainee Water Hygiene Technician? Join our dynamic water hygiene teams in Bristol. As a trainee, you'll undergo comprehensive technical training spanning 12 months, culminating in your qualification as a proficient Water Hygiene Technician. Your role will involve safeguarding public health and assisting businesses in mitigating the potential risks posed by water in buildings.

### Key Responsibilities:

- Tank Maintenance: You will be trained to clean and disinfect cold water storage tanks.
- Chemical Handling: Learn safe practices for handling chemicals.
- Shower Maintenance: Perform cleaning and disinfection of showers.
- Monitoring: Monitor water temperatures and maintain accurate records.
- Sampling: Collect water samples for analysis.
- TMV Servicing: Service Thermostatic Mixing Valves (TMVs).

This role is highly diverse, requiring you to travel to various customer sites daily.

### Training Structure:

Our structured training program combines classroom-based learning, on-the-job coaching, and mentoring, complemented by practical assessments and a final examination.

### Benefits and Working Conditions:

- Starting Salary: £22,000 per annum (increasing to £24,800 upon qualification)
- 11-part training program with coaching and mentoring
- Profit-related pay
- Overtime opportunities
- 20 days of annual leave plus bank holidays (increases with service)
- Company-provided van, phone, tools, equipment, uniform, and personal protective equipment (PPE)

### Qualifications and Skills:

We are seeking individuals with a positive attitude, strong teamwork skills, and a genuine interest in water hygiene. Requirements include:

- Post-16 qualifications
- Attention to detail and excellent reporting skills
- Physical fitness for tasks such as lifting, carrying, and ladder climbing
- Full current UK driving license for at least 12 months
- Easy access to the motorway network

**Advantageous qualifications and experience:**

- 1 year+ experience in any field-based role
- Plumbing qualification or plumbing experience

**About Us:**

Dantek is an owner-managed family business that values work-life balance and fosters a collaborative work environment. We prioritize results and are committed to solving problems through effective teamwork. Your contributions are valued, and we encourage solution-based problem-solving.

**Selection Process:**

Applicants should apply via Indeed. Shortlisted candidates will receive an application form and a brief assessment. Successful applicants will be contacted for a first video interview, followed by a second interview at our office for shortlisted candidates.

If you're looking for a fulfilling career in water hygiene with a supportive and forward-thinking team, apply today!
